Wanda Hawley In New Role In "Truthful Liar."

Appearing in a decidedly different characterization from those in which she has achieved prominence as a star, Wanda Hawley in "The Truthful Liar," her latest Reelart picture-distributed by Famous Players-Lasky Corporation, will be at the Grand tomorrow.

Miss Hawley is seen as a butterfly wife who has too much time on her hands and necessarily seeks amusement elsewhere than in her home. This propensity involves her in serious trouble, and as a consequence, her relations with her husband become strained almost to the breaking point. In the dramatic situations provided by Will Payne, the author, Miss Hawley is seen to decided artistic advantage as is also, Edward Hearn, her husband in the picture. There isn't a dull moment in the picture which was directed by Thomas Jefferson and the various roles of which are well presented by Charles Seigmann and other capable players.
